

Hi  
YOU!

# LET ME INTRODUCE MYSELF

↳ ID pic 😊  
haha

I am an artist from Medellín Colombia.

I did my undergraduate degree in graphic design here in Colombia at the Universidad Pontificia Bolivariana and then I went to specialize in fine arts at the University of Malaga in Spain. After this I did my postgraduate degree, which was half of the master's degree in illustration at BAU design university center located in Barcelona.

In 2018 I returned to my country, to my roots and to grow my work as a freelance graphic artist and illustrator. I currently work for different areas of art such as animation, muralism, illustrated product, brand creation, textile illustration, editorial and some exhibitions around the country

My work speaks about the poetry that we can find in everyday life, I love details and that others can find surprises in each line. I feel fulfilled when the person who sees my art connects with their inner child, and experiences different emotions.

I think we all have a mission and I like to believe that mine is to help the planet by drawing. I draw about mental health, animals, caring for the environment and coexisting in our home, planet earth.

# A BIT ABOUT MY WORK

I have worked with international brands such as Nike, Levis, Amplifier Art, Duome Ediciones, Converse, Salani Editore and others. as with Colombian companies.

My dream has always been to be able to take my art to the whole world to teach and sensitize different cultures.

I hope you can obtain from me a wide catalog of illustrations with great sensitivity and also a lot of responsibility, good teamwork and hard work. ;)
